Comments: I am very enthusiastically in support of the Redstone to McClure Pass trail! What a great project. As you are aware, the road from Redstone to the top of the pass is narrow, high-speed, with zero shoulder for cyclists. Providing a continuous trail adjacent to the roadway or a bit removed will be a wonderful asset to the recreational and traveling public. Safety for cyclists AND vehicle drivers will be vastly improved. THANK YOU for working to make this dream a reality!
