Comments: Ward Lake Recreation Area Master Plan "Vision"

With your Master Plan and Vision you will be destroying our stories, stories we pass down to our friends and families while sitting in front of a crackling fire at Ward Lake, drinking a cup of boiled coffee, having a piece of birthday, wedding, funeral, graduation, class reunion, first/last kiss, retirement, christmas cake....and remembering the ones who shared their stories...so many stories.

I don't believe a government agency or cruise ship industry can tell our stories....they are not their stories to tell.
