Title:

Comments: Please do not remove hazard trees from roads that are either closed or going to be closed.

The planning area hosts congressionally designated Wild and Scenic Rivers. All management activities within these river corridors must protect and or enhance the identified outstandingly remarkable values for those segments. Also, this project spans Late Successional Reserves and Critical Habitat for the northern spotted owl which often use burned patches for foraging. A full analysis on current and proposed impacts to wildlife and available habitat should be completed before this project is approved.
