Comments: I do not support this project.

Highway 133 from Redstone to top of McClure Pass has the widest, cleanest shoulders in each direction compared to Redstone to BRB section of Highway 133.

There is no need to facilitate bike riders of any type on additional roads/trails. The current road is fine to travel in either direction.

If anything, money should be allocated to improving various narrow shoulder widths going up the Crystal...from BRB to Redstone. The downvalley shoulders are in good condition and of good width.

Thank you...
