Comments: Project # 61319

My comment is concerning the maintenance of trails in this area, especially the lower Lake Perseverance trail  
This trail along with others within this area all need a lot of work on washout/drainage areas.

I would like to see more regular maintenance on these trails without waiting for a "project". It seems like it would be cheaper in the long run to do the work as it comes up and not waiting until it needs a major project.

I believe its been over ten years since anything has been done to Perseverance trail except cut fallen trees.

Also broken boardwalk at the lake needs fixed.

Is there still any volunteer program for trail work?
