Comments: Regarding Ward Lake Recreation Area Improvements #61319:

The Ward Lake/Frog Pond area and trail have been enjoyed by families and individuals since long before I was born in Ketchikan. Its the most heavily used recreation area in Ketchikan year round. Locals can access this area by car, bike, bus or foot which means everyone in the community can experience this beautiful outdoor setting. Too many people on the trails in the Ward Lake/Frog Pond area would diminish this outdoor experience. Please continue the policy of no commercial enterprises operating in this area. I would ask that this same policy also extend to the Ward Lake road and creek from the gate above Pool Enterprises to Frog Pond.

Thank you for your consideration.
