Comments: I am a resident of Aspen, CO and am writing in support of the proposed soft surface trail from Redstone to the top of McClure pass. This new trail will be a great addition to the Roaring Fork Valley on its own and will allow for the larger project of eventually creating a new biking and hiking connection from Carbondale to Crested Butte. The trail's alignment provides a safer alternative than riding on Hwy 133 while staying relatively close to the road to minimize impact on wildlife. The proposed grade and surface will provide a family friendly dirt trail option which there aren't currently any comparable options in our area. This trail will increase tourism in Redstone helping with the local economy. Thank you for your time and consideration. I look forward to riding and hiking this trail.
