Comments: My family strongly supports this leg of the Crystal Bike trail, as well as the missing leg from BRB to Redstone. It will unify our community.

I only hope that it happens within my lifetime so that I can ride or walk from my house South of Redstone into the Village ... and more important, that my Grandson can ride his bike safely to visit his friends in Redstone.

Please realize that in Redstone, it is the older negative folks that come out in force against this bike trail ... but this is a project for the future generation!

(I am the former GM of the Redstone Inn for 20 years)
