First name: Kay

Last name: Bell

Organization: Denver

Title:

Comments: I am a 37 year resident here in Redstone. I believe we have plenty of trails and places for people to bike. We have an obligation to the wildlife in this area. People can't seem to take care of what is here, I wouldn't be inclined to build more to be trashed and disrespected. I also do not like the manipulation of building the Redstone to McClure Pass link so that the two will have to be connected and finished. Put this money into something more useful and less controversial. A senior center in Redstone perhaps.

I do not want this trail here in our beautiful Crystal River Valley! If you build it there's not taking it back!!
