Comments: As a resident of the Crystal Valley for almost 50 years, I fully support the the Redstone to McClure Pass bike trail. I only hope that it happens within my lifetime so that I can walk or god willing bike into Redstone from our home on the Mesa. It will create a sense of community. Our kids can ride their bikes to meet up with friends.

I love and often ride the bike trail from Carbondale to BRB but regret that it was the leg from BRB was never completed.
