Comments: Hello

I am writing as an avid cyclist that lives in Carbondale and rides a lot but does not ride the Redstone/McClure area because of safety danger. This is a great area and should be accessible to cycling but the traffic makes it unusable. The corridor is busy with cars and creating a separate path for bikes should help keep the impact to others and animals minimized. Please help make this happen so cyclist can enjoy the Crystal River valley.

Thanks

Deric
