Title:

Comments: I am in support of this bike trail as it is proposed; although, I would have loved to see a harder surface to help deal with road bikers along 133. I like that this trail follows the highway and will utilize an existing trail to the top of McClure Pass.

I am very much in support of planning for the future growth of this valley by giving people a place to go and something to do. I also support the hope that this trail will pull people away from more delicate lands as well as protecting our elk herd and other wildlife. I am also in support of the winter close (even though I'd love to use the trail in the winter) to potentially protect the wildlife and delicate calving grounds.
