Comments: Thank you for taking my comments. I believe it is down to one simple question. Will this trail do more harm than good. I believe that this trail will do more harm. We have created a "wreck-reation" nightmare in Colorado. We now have to have permits to hike the Four Pass Loop, Hanging Lake and Conundrum Hot Springs. We have maxed out the Maroon Bells and West Maroon Pass. We have exhausted the Lead King and Crystal Mill. To what benefit? To what end? Not all development is good and this trail and plan is not good. The original idea was to connect Carbondale to Crested Butte. Will Gunnison County complete their side of the Valley? Doubtful, they can spend tax payer money in a better more responsible way. I say "no" to this trail.
