Comments: I support the Crested Butte Mountain Biking Association in expanding the Upper Cement Creek Creek trail from its current terminus to the Crystal Peak Trailhead. Riding a bike on Upper Cement Creek Road is not a pleasant experience. There are too many dirt bikes, ATVs and 4 x 4 vehicles on this road. Having completed the Middle Cement Creek Trail surely the natural way to finish this wonderful development is an extension allowing a complete, safe, single track, off road experience almost all the way from CB South to Crystal Peak and beyond? This would be a wonderful amenity for the local population and the thousands of mountain bike tourists that visit the Gunnison Valley.
