Comments: I do NOT support the Willow Creek Land Exchange #61576 for the following reasons:

1. Grand County has outgrown the current infrastructure. Roads being the main problem. What about water?
2. The proposed housing will not be affordable housing which is what Grand County needs currently.
3. Once that land is gone, the Arapaho National Forest will never get it back.
4. If anything, the Winter Park resort should build parking for the crowds which has also overflowed onto the already congested Hwy 40.

Thank you for your time on this issue.
