Comments: I do not support the idea of exchanging this land parcel to become developed land. This is prime property for investors to create second and vacation homes, at a time when lack of affordable housing is more than a crisis for our community. We are looking workforce and unable to replace or expand vital local infrastructure because of the housing crisis. This would just add to that. Further, any development in this location will add to traffic congestion into the Mary Jane base area, and possibly remove needed parking. The road to MJ base is already a traffic and parking nightmare and safety hazard. Please don't make it worse. Further, our forests and rivers need this open space to remain for their health. I do not support this project on any level.
