First name: Tribal

Last name: Council

Organization: Pit River Tribe

Title: Pit River Tribe

Comments: We went out to Hambone Cabin site. One tribal member did not see a problem with burning the meadow, since they burn their own meadow in the Dana area every year. There was general consensus to have a tribal monitor during burning. They wanted me to pursue getting other tribal members/Ajumawi cultural representatives to come see this site and the rest of the sites that were near burn units.
