Comments: With the boom in outdoor enthusiasts as well as increased summer visitors, Crested Butte needs more trails to help spread out users. I believe this proposal process has been incredibly thorough, well designed and considerate of all user groups and land owners. The focus of getting riders off the roads is a fantastic, much-appreciated one for both safety and enjoyment. While I wish the entire plan had been accepted, I'm thankful for the 9 miles of new trail that did make the cut! Thanks to CBMBA for the years of endless legwork and planning to bring this to the finish line.
