Title: Owner

Comments: I would like to advocate for class 1 e bikes to be allowed on trails. These are non-throttle e bikes and are only pedal assisted. I am handicap from a helicopter crash and using an assisted electric bike is the only way for me to get out thee and ride. Class 1 e bikes do no damage to trails and with proper etiquette other classic bike riders would have no angst about these assisted bikes.

I feel as though the ada could make this mandatory but believe the forest service should just allow class 1 e bikes for handicap people and even everybody.
