Comments: To Whom It May Concern:

As a former resident of the Black Hills I am opposed to the project as designed. It appears the project includes clear cuts including the removal of old growth timber. As a former employee of the Forest Service and also a logger I don't believe in clearcutting as an effective way to manage the forest. I fully support managing the Forest but not in the manner proposed in the project. Please reconsider the project as designed.

Thank you.

Tim Creal
