Title:

Comments: I have been hiking in the Black Hills since 1969. I treasure the creeks and the giant spruce along them. They are a treasure for our nation and the world to enjoy. I especially hope my grand children and their children will be able to enjoy these ancient residents of our community. I can think of no use to which they will be put that is better than their station now for the health of the forest biome. Please do not destroy the "overstory" as has happened in so many areas of the pine forest.

Thank you for all you do to keep our forests healthy and sustainable.
