Comments: I am opposed to the Willow Creek Land Exchange.

Winter Park Ski Area is a World Class ski area. One of the nice features of the Mary Jane ski area is the views of undeveloped and wild lands. I have been concerned as I see housing developments continue to spread into the views from the ski resort. The Forest Service should be acquiring private lands in the view shed to retain the beautiful views. There are plenty of rental units available in the Towns of Winter Park, Fraser and surrounding communities. Let's keep the area around the ski area wild! The 50.23 acre parcel is predominately wetlands and very remote. How likely is it to be developed? If you are going to do a land exchange, please make the exchange with a parcel that is in the view shed of the ski area and that is likely to be developed.
