Comments: I would like to see less trails built. I think we already have so many in our valley and we most definitely do not need any more. There isn't really a drainage or valley without a trail through it and in my opinion we shouldn't be clogging up the already clogged landscape with more trails. I am also an avid Elk hunter and I believe that building more trails hinders the elk population and makes hunting quite a bit harder because humans are constantly traveling up every little drainage. Spend the time working on the ones we have, or don't. Often times when new trails are built I feel they are dirt highways, all the rocks are removed and a couple feet wide dirt path is made. I would like to see CB go back to the small narrow single track style trails. And leave the rocks roots jumps and bumps in them!
