Comments: I am in agreement with all of the proposed trail additions and changes outlined here. In my opinion this is a bare minimum plan to make the rides in the valley feel more connected, incrementally get better riding experiences, and keep people off the road. To me, in order to keep up with the demand and changing desires of the mtb populations, we need much more. Such as Progressive trails, a plan for allowing emtb on some hard to access non-motorized trails, and more easy to access trails. Having the CBCC the last couple of years was genius, and opened my eyes as to what is possible with a little foresight and \$. Keep going!
