Comments: I support CBMBA's comments on the North Valley Trails project, specifically CBMBAs concerns over two trails being removed from the NEPA scoping process during the IDT refinement, before the public was given an opportunity to comment. I urge the Gunnison Ranger District to include the Upper Cement Creek to Crystal and Dr. Park Reroute to allow for public comment. These two trails were vetted and approved by the Gunnison County Sustainable Tourism and Outdoor Recreation (STOR) Committee, which is comprised of stakeholders across all disciplines.

I agree with CBMBAs assessment that the Snodgrass Public Trail and the Eccher Gulch #559/Granite Basin #558 trails should not be left out of the NVTP. I agree with CBMBAs position to see action taken by the Ranger District to address access to these highly desirable and sought-after public lands rather than isolating them from the public.
