Comments: Dear Ranger District,

Please consider ALL of CBMBAs proposals for the NVTP. They have thoughtfully and painstakingly accounted for all stakeholders and most importantly, our most valuable resource, the environment and natural beauty around CB. The trail system improvements are for the benefit of ALL and not just a few. CBMBAs vision and plan is the model of sustainability and connectivity, and their action model their words. Thank you for your careful consideration of CBMBAS proposals and comments.
