Comments: Hello,

I support CBMBA's original plan. Specifically, I don't support upper upper to brush creek trailhead, I support CBMBA's proposed trail, but do support strand bonus to 409.

I also support budd connection-ambush to tent city, and deer creek to tent city, as well as the teo extension and reno divide road parallell trail.

I fully support the cement creek trail to upper cement creek trail to crystal. I bike, run and camp in this area and have for 30 years. This section of road is getting FAR busier than in years past and use is only increasing(at an alarming pace). Any time we can get riders off the road, it's safer and more pleasant for all involved. Thank you for reading my comments! Sincerely, Sarah Baskfield
