Comments: Please re-instate the plan for an extension of the Upper Cement trail toward Crystal Peak trail! My understanding is you feel this would only be used by a highly skilled few? Nothing could be further from the truth. I ride this trail several times a week all summer long, typically as an out and back. I also maintain this trail all summer long. There are LOTS of lower skill riders enjoying the Upper Cement trail and this extension would be an amazing addition to their enjoyment. There may not be crowds riding up Crystal and over to #400, etc. but I can assure you if we build an Upper Cement extension beyond Hunter Hill, it will have a ton of happy riders. Thanks for your consideration.
