Comments: Thank you for the opportunity to comment. My wife and I have been coming to Crested Butte for over 21 years of mountain biking, and we have now been a full time/part time resident of Crested Butte for the last 9 years. We fully support the CBMBA "Riders Off the Road" trail plan. I especially appreciate the inclusion of many of the proposed trails in the NVTP, but I would also like to see the Upper Cement Creek to Crystal, Dr Park Reroute, Snodgrass Public Trail, and Eccher Gulch #559/Granite Basin #558 trails included in the NVTP. I also support CBMBA's proposed trail for Upper Upper to Brush Creek Trailhead rather than the proposed IDT alignment. I support CBMBA's proposed upper/northern portion of the Deer Creek to Tent City trail as it was created in cooperation with RMBL and wildlife proponents to minimize the impact on wildlife. I disagree with the IDT finding that the Upper Cement Creek section of road is not busy. My wife and I ride this trail often and can say that it does see a lot of motorized use. I think CBMBA's proposed Upper Cement Creek to Crystal Peak Trail would be very valuable for mountain bikers. I fully support the proposed more sustainable reroute of the Dr Park trail. I also support the day use area and trailhead infrastructure improvements. Thank you for your attention.
