Comments: I am a long time visitor of the Crested Butte area (30+years) and soon to be resident. I am in support of the Crested Butte Mountain Bike Association (CBMBA) North Valley Trails Project (NVTP). Keeping bikers and hikers off roads is important for safety . I think expanding the three proposed trailheads will help to limit the impact of recreators on the surrounding area by providing designated access. I have also read CBMBA's "CBMBA\_NVTP\_comments" here and am supportive of their trail by trail recommendations as well as their recommendation that Snodgrass Public Trail and the Eccher Gulch #559/Granite Basin #558 trails should not be left out of the NVTP. Thank you
