Comments: Comment on North Valley Trails Project #61177

I recommend that all trail projects proposed by the Crested Butte Mountain Biking Association (CBMBA) that are also approved and recommended by the STOR committee (of Gunnison County) concerning Gunnison Ranger District North Valley Trails Project #61177 be made available for public comment.

Please include the following STOR and CMBA approved trails in the public comment process before making the final decision on the North Valley Trails:

- the Snodgrass reroute proposal
- the Eccher Gulch//Granite Basin proposal
- the Upper Cement Creek to Crystal proposal
- the Dr. Park reroute proposal ; the reroute would make the trail much more sustainable
- the Lake Irwin Road Parallel Trail
- the Deer Creek to Tent City trail section north of 738.2a

I am in support of the following trails and other areas:

- the Deer Creek to Tent City trail (but add the section north of 738.2a)
- the Teocalli extension
- the Budd Connection to Tent City Trail
- the Cement Creek Trail Lower Cement Creek Trail to Caves
- the Bear Creek Reroute
- the Day Use Areas and Trailhead improvements
- the Strand Bonus to 409 trail proposal
- the Reno Divide Parallel Trail

I am not in favor of the Upper Upper trail to Brush Creek trail as is. The route for this trail should be what CBMBA proposed in order to make the trail much more acceptable to hikers and riders.

I am thankful for the trail proposals that have been made available for public comment. However, all of the CBMBA and the STOR committee trail recommendations should be included for public comment.
