Comments: Hello, I am Gunnison County resident for 45 years. I am an avid mt biker, hiker and nature lover. in general I support improvement of trails to mitigate erosion, mug bogs etc, but I do not support additional trails that would fragment animal habitat. I feel that we do not need additional trails just for fun.

I will comment on a few of the proposed trails.

#1 lake Irwin parrallel trail is good to allow riders together out of th dust on that busy road.

#3 Rustlers mudbug reroute a good idea

#4 upper upper to brusks parking lot not needed

#6 good idea to let riders get on a trail from "tent city", so they don't have to drive to a TH.

#12 good. This is a busy section of road and a trail beside the road will not hurt

#13 no because of wildlife habitat
