Comments: Thank you for considering recommendations for analyses that should be conducted during the NVT Environmental Assessment as well as alternatives to assess that have been suggested by the public.

I fully support the analyses and alternatives recommended in Bob Goettge's and Kathy Norgard's letter to the Forest Service. (The letter ID is 61177- 4295 - 220.) Please make sure that these analyses are performed and alternatives evaluated during the NVT EA.
