Comments: I am writing in opposition of Willow Creek Land Exchange #61576.

The land exchange and the proposed development adjacent to Mary Jane Ski resort will benefit few (the developer and future home owners) but will be detrimental to the many members of the community who enjoy the beauty of the natural areas.

The values of the proposed parcels appear very lopsided, especially given how home prices have skyrocketed in the area. Was the value of the developed parcel considered when the exchange was outlined?

Please re-consider this exchange and keep the resort-adjacent Forest Service properties off limits to private developers, both now and in the future.
