Title:

Comments: Blue Lakes TH Rd.: In regard to the TH at the apex of the road grade the area smooth and gravel. Designate parking spaces and sign to indicate extra parking is available at the current two parking and camping areas to the south. Develop more parking at the lower existing parking lots and camping. It would be nice to have a separate area for horses/mules with more hitching rails. A circular arrangement would be best. Wilderness Zone: No camping at the 1st lake! Designated camping in the woods south of the lake. Consider a pit toilet in a secluded place. The boundary Waters Canoe Wilderness provides those pit toilets at all their many camping spaces and it works quite well. The upper lakes should have limited camping spaces and a pit toilet at the sites. Tom.
