Comments: I think it would be great to have more easily accessible cabins here in Petersburg, especially when seas may be too rough to make a longer boat trek. I really like the idea of having a cabin towards the lower end of Petersburg Creek. Another idea is having one somewhere on the south side of Mitkof Island along the road system, but I think it's important to include a short hike in vs right along the road to help avoid it being poached/trashed/damaged.

I believe having more accessible cabin sites near or on island will attract more families, so I think something else important to note is the size of the cabin, and making it something equivalent to the size of West Point.
