Comments: I do feel that the trails should be available to everyone, including visitors. However, I strongly disagree with the idea of paid tours on these trails. This just means there will be more restrictions for those of us locals who want to be able to enjoy the trail systems. I think the trails should remain as they are, open to the public. with 0 guided tours allowed. guided tours should be done on private property like rainforest sanctuary. please reconsider your decision to allow tours on the ward creek trails
