Comments: I agree with the proposed actions for all zones included in the EA.

A few comments in regards to the Wilderness Zone including the Blue lakes themselves. I believe that it should be a limited number of day and overnight permits issued. Because of the popularity with social media, I believe that there will need to be rangers on hand to help inform and enforce the regulations. Because of the increased cost to the USFS a daily fee and overnight fee should be implemented to cover the rangers salaries.

In addition, the camping has become unbearable below the Blue Lakes trailhead. There is human feces everywhere! I propose that the USFS goes to a first come first served designated dispersed camping from the forest boundary all the way to the trailhead.

Because the upper Blue Lakes are on tundra and in a sensitive zone, I propose that no camping be allowed in that area. People are camping adjacent to the lake, destroying resources, and defecating where they please

I have never seen a Law Enforcement Officer on county road 7. I have only seen USFS employees cleaning the restrooms. On multiple occasions I have observed people destroying resources to find a campsite. I would suggest that LEO's regularly patrol this road.
