Title:

Comments: I fully am in support of permits or reservations in place for hikes like Blue Lakes, Ice & Island Lakes. I'm born & raised in Colorado and I see how the influx of people have had a detrimental effect on our forest areas. Maybe by charging people & limiting the numbers, people may have more respect for the area. Plus I know how badly budgets have been cut for those who are responsible for taking care of these areas and if this money could go back to those agencies then it's a win-win in my book.
