First name: Mary Ann

Last name: Elder

Organization:

Title:

Comments: Base to Base Gondola: In order to meet the objectives of reduction in traffic, reduction in road maintenance and sedimentation into Lake Fork, the gondola should be free, as in the Telluride gondola.

Lift 8 replacement: Extend the top of the alignment to provide skier access to lower Blitz and West Basin.

lift 7 Restaurant: Location of building and access should not affect the "M&M traverse" which goes from Upper Totem-Off, across the entrance to Lower Totem-Off, and into Lonestar. Also there should be no effect to the terrain or levels of use in Lonestar, which is unique and very popular.
