Comments: The area around Lake Tarleton is contiguous with the most scenic in the Granite State. The White Mountain National Forest has failed to designate any Scenic Areas west of I-93. For the benefit of the local tourism and recreation economy, and for the integrity of this treasured landscape, including Abenaki and early colonial historical resources, it's past time to permanently remove the threat of logging and development by amending the White Mountain National Forest management plan and designating Lake Tarleton a Scenic Area. The Scenic Area designation will provide the carbon sequestration in the old trees to remain while providing for the natural beauty and succession of forest life in a natural state. Thank you
