Comments: I believe that all camping at any of the Blue Lakes should either be suspended or require a permit. I further believe that all hikers should also require a permit. I would be willing to meet either backpackers or hikers at the trailhead on an occasional day or two. The over use of this area is deplorable and needs to be addressed in an aggressive manner. While this was once my favorite hike, I haven't done it in 3 years. I wish you luck in this effort. Action is urgent!
