Comments: Thank you for taking the time to evaluate ways to improve and expand cabins in this area. We have been needing more cabins that are accessible for a while. I would also love to see a cabin on land here in Petersburg that doesn't require a boat to access. Woodpecker is a great location that allows boat access OR driving access. Also that end of the island has much better weather. Would love to see more money spent up on Twin Creeks such as at Frenchie Creek where majority of our snow mobile riders spend their winters. Also a cabin nearby if by boat would be great. Many of the cabins in the Petersburg area are so far away, depending on tides, big water to cross, and hard to get to so many aren't used very often if ever. We also love other spots on the south end of the island such as facing the stikine River, in the Narrows possibly. Some place close by would be amazing. Thank you!
