Comments: I'd like to add my support for a road-accessible cabin on Mitkof Island and/or a cabin with very sheltered direct vessel access like the Beecher Pass cabin.

One idea for a road-accessible cabin could be to put it up high with a nice view, so that it could be accessed in summer by car and in winter by cross-country skiing or snow-machining. Other possibilities could be near the Woodpecker Cove boat launch, at the LeConte overlook, or even at the Ohmer Creek campground area.

Thank you to cabin crews past and present - we are so grateful for the USFS cabins!
