Last name: Woodard
Organization:
Title:
Comments: 1. A base to base Gondola is a great idea. Spreads out the skiers in the winter and cuts down on the traffic and dust on Twining Road in the summer.
2.Lift 2 and 8 replacements are needed. Lift 2 is vital to getting to the back side and home and Lift 8 is our favorite.
3.Water storage for fire suppression is a great idea. We are looking at more dry summers I think.
4.Nordic and Snowshoe trails will give more people the opportunity to enjoy the outdoors. Great Idea.
5.On Mountain restaurants are a great idea. That will spread out the load and save trips to the base.
6. More hiking in the Lift 4 area will provide relief to the Williams Lake Trail and allow more people to enjoy the area in the summer.
