Comments: A cabin near Cape Fanshaw would be a good spot. Preferably on the mainland rather on Whitney, tucked up inside Cleaveland Passage. In addition to new cabins I would also like to ask that work be done on existing infrastructure. The trail from wrangell narrows to Petersburg Lake has been in disrepair for a number of years now and gets worse each winter. I would like to see that be rebuilt. The Harvey Lake Cabin should be reopened as well. It is in such an amazing spot and I hate to see that it can't be reserved anymore. Thank you for the opportunity to submit my comments.
