Comments: Shoshone NF Travel Management Planning Project

Hello,

I am emailing you to please consider saying no to Alternative 3 as well as accepting alternative two with modifications. I believe that the Wolf Point road (FS 326, right fork) should be re- designated as a non-width-restricted motorized trail open to all vehicles. This is one of my favorite areas to spend time and go rock climbing. It is absolutely beautiful, and I would be devastated if it was no longer accessible. Thanks for your time.

Helen Johnson
