Comments: I think that the Gondola, & especially the Nordic Trail System are Great Ideas for the Future of TSV & the entirety of the Greater Taos County in general.

The Water Storage Ideas are the Most Important part of this whole proposal, though.

It goes without saying, of course, that if stream flow into the Rio Honda is too severely restricted, then many species, and 'high water level riparian vegetation' will be negatively impacted.

I'm just guessing, but if the Spring Runoff could be utilized to 'fill the tanks, it might have the least impact on vital flora & fauna survivability, overall?

I'm a retired biology teacher. And, we only have One Planet. Diversity matters, a lot. And, we're never going anywhere else, Ever...

Other planet colonization ideas are impracticable fantasies.

But, in general , I support this project.
