Title:

Comments: taos was never about making money from private usage of public land.i oppose any expansion for personal profit which impacts the lives, water and historical culture of those downstream.more is not always better and with drought and global warming,alot more forethought and scientific study is needed.this expansion debate has been going on since the late seventies.its simple, more people, more pollution, with no care for the downstream effects.all administrative forest service employees should read the book BILLIONAIRE WILDERNESS;THE ULTRA WEALTHY AND THE REMAKING OF THE AMERICAN WEST BY JUSTIN FARELL
