Comments: Trees are a key component to any vacation, recreation area. If we were to lose the trees as proposed, it will have a huge impact on the economy and tarnish the reputation of New Hampshire as one of the vacation states. It would also contribute to the degradation of the lake water that is preserved by these trees. Trees come down, homes and condo's etc appear and will spread like a bad rash. What happens to all of the wild life, Gone. Let sleeping dogs lie, and let New Hampshire stay as natural and beautiful the way it currently is. Thank you!
